

Mohamed Fouda, PhD, MSc in Pharmacology, BSc in Pharmacy

Lecturer at Pharmacology and Toxicology department, Faculty of Pharmacy, Alexandria University, Egypt

Postdoctoral Researcher at Simon Fraser University, BC, Canada.

Tel: (+1)604-499-8099 (cell), Email: mohamed_fouda@sfu.ca

Linkedin: <https://www.linkedin.com/in/mohamed-fouda-1447b1122/>

Research interests (*in-vivo* and *in-vitro* cardiovascular, neuropharmacology and electrophysiology)

- Understanding the molecular and neuronal mechanisms of cardiovascular anomalies.
- *In-vivo* studies on nicotine-evoked cardiac dysfunctions (Master's and PhD)
- Sex differences in neuronal adenosine receptors signaling (Master's and PhD)
- *In-vitro* molecular mechanisms of the neuroprotective action of moxonidine in diabetic rats (My first postdoctoral training)
- Electrophysiological patch clamp methodological approaches and molecular biology techniques to study effects of cannabinoids on sodium ion channels (My current postdoctoral training).

Career History

- 2018 November till now: Postdoctoral fellow at Simon Fraser University, BC, Canada.
- 2018 February-November: Postdoctoral fellow at Brody School of medicine, East Carolina University, USA.
- 2016 May- November: Visiting scholar at Brody School of medicine, East Carolina University, USA funded from the Egyptian government.
- 2014 till now: Lecturer on a leave of absence, Dept. of Pharmacology, Faculty of Pharmacy, Alexandria University, Egypt.
- 2007- teaching assistant, Dept. of Pharmacology, Faculty of Pharmacy, Alexandria University, Egypt.
- 2007-till now: Licensed community pharmacist in Egypt

Research techniques:

- Intravascular cannulation and measurement of blood pressure parameters in conscious animals (rats)
- Intracisternal cannulation in rats (*in-vivo* brain injections)
- Isolated perfused kidney technique
- Electrophysiological patch clamp technique
- Cell culturing techniques and human pluripotent stem cell-derived cardiomyocytes
- Biochemical assays
- Isolation, slicing and/or homogenization of different tissues isolated from rats
- Ovariectomy of female rats

- Western blotting
- Immunohistochemistry
- Polymerase chain reaction
- Cloning
- ELISA

Qualifications

- 2014 **PhD.**, Pharmacology, entitled "Role of estrogenic pathways of nitric oxide synthase and heme oxygenase in the hemodynamic effects of nicotine in female rats". Department of Pharmacology, Faculty of Pharmacy, Alexandria University, Egypt.
- 2010 **Master's degree.**, Pharmacology, entitled "Estrogen modulation of the adverse Cardiovascular effects of nicotine in female rats". Department of Pharmacology, Faculty of Pharmacy, Alexandria University, Egypt.
- 2007 **Bachelor's degree.**, Pharmacy, with the grade of Distinction Honor, Faculty of Pharmacy, Alexandria University, Egypt.

Pharmacology graduate student mentorship

Master's degrees (2)

- Sherouk Sherif (August 2017), Faculty of Pharmacy, Pharos University.
- Mohamed Abdalla Lakany (August 2015), Faculty of Pharmacy, Alexandria University

Training:

- 1-** Vancouver molecular biology workshop (February 18th-22nd, 2019) at University of British Columbia

This workshop included hands-on training on different techniques used in the molecular manipulation of DNA, RNA and protein such as:

- western blotting
- Cloning
- qPCR
- ELISA
- Next generation sequencing analysis

- 2-** MITACS elevate training, Canada:

- Project leadership
- Partner organization business case
- Career management
- Building professional relationships

- 3-** Flow cytometry workshop April 2018, East Carolina University, NC, USA.

4- Industrial pharmaceutical training in “Pharco pharmaceuticals”, Egypt, 2006.

Awards

- MITACS Elevate postdoctoral fellowship (IT1449-IT1450) in collaboration with “Akseera pharmaceutical corp.” entitled “Interaction between cannabinoid drugs and sodium channels in diabetes/high glucose induced oxidative stress, neuroinflammation, and neurotoxicity” (September 2019-now).
- Visiting scholarship at Brody School of medicine, East Carolina University, United States of America funded from the Egyptian government.
- Best oral presentation award from Faculty of Pharmacy, Alexandria University in May 2013.

Funds

- Postdoctoral researcher in grant focusing on the effects of cannabinoids on voltage-gated sodium channels. The funding comes from the industrial partner, Agrima Botanicals company (November 2018- till September 2019).
- Member of an EU-funded consortium funded under the ERSAMUS+KA2 program (contract number: 561915-EPP-2015-EG-EPPKA2-CBHE-JP). In this project, Newcastle University together with several European partners are co-operating with Cairo University in developing a new diploma in clinical toxicology (2015-2018).
- Member in project supported by the Science and Technology Development Fund, Egypt (STDF Grant No. 14895) to study the gonadal hormone modulation of the cardiovascular effects of endotoxemia (2015-2018).

Teaching:

- Pharmacology and Toxicology, undergraduate pharmacy students, Alexandria University, Egypt.
- Biochemistry and Bioassay, undergraduate pharmacy students, Alexandria University, Egypt.
- Pharmacology I, Clinical program undergraduate pharmacy students, Alexandria University, Egypt.
- Drug interactions, Clinical program undergraduate pharmacy students, Alexandria University, Egypt.
- Drug information, Clinical program undergraduate pharmacy students, Alexandria University, Egypt.
- Clinical nutrition, Clinical program undergraduate pharmacy students, Alexandria University, Egypt.
