TCurriculum Vitae

Personal Contact Data

Name: Omayma Abdel Razak Mohamed Amin **Nationality:** Egyptian Marital status: married, two daughters Language spoken: Arabic, English, French Current Position: Professor of pharmaceutical analytical chemistry, Faculty of Pharmacy, Alexandria University, Alexandria, Egypt. Work Address: Faculty of Pharmacy, Alexandria University, Alexandria, Egypt. Post Address: PO Box: 21521 Fax: 002 03 4873273, 002 03 4871668

Email: Omarazk amin @yahoo.com

Academic records

- 1. B. pharm Chem. June. 1882, faculty of pharmacy, university of Alexandria, Egypt.
- 2. Master in Pharmaceutical Analytical Chemistry Mars (1986), faculty of pharmacy, university of Alexandria, Egypt.
- 3. Ph.D. in Pharmaceutical Analytical Chemistry April (1993), faculty of pharmacy, university of Alexandria, Egypt.

Working experience

1. Teaching Assistant, Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Alexandria University, Egypt (1982 - 1993)

- Assistant Professor, Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Alexandria University, Egypt (1993 – 2000)
- Associate Professor, Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Alexandria University, Egypt (2000 – 2003)
- Associate Professor, Department of Pharmaceutical Chemistry, Faculty of Pharmacy, King Abdulaziz University, KSA (2003 – 2005)
- Professor, Department of Pharmaceutical Chemistry, Faculty of Pharmacy, King Abdulaziz University, KSA (2005 – 2013)
- Professor, Department of Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Alexandria University, EGYPT (2013 –)
- 7. Head of the Pharmaceutical Analytical Chemistry, Faculty of Pharmacy, Alexandria University (2016 2019)

Awards

Alexandria University Award for Promoting Science (year 2002)

Research interest

My research interest is focused on development and validation of methods for drug analysis in dosage forms and biological samples, stability study of drug substances and products and impurity testing. Among the analytical techniques of interest are different spectroscopic techniques, chromatography and voltammetry. In all these fields, 46 papers were published mostly in international journals.

Postgraduate Degrees Supervised

Two M. Sc. & Four Ph. D. Thesis in Pharmaceutical Analytical chemistry.

Review committee member for:

Journal of Drug Testing and Analysis, Journal of AOAC INTERNATIONAL, Journal of King Abdulaziz University Medical Sciences, Arabian Journal of Chemistry and Journal of Chromatographic Science and international journal of analytical chemistry.
